

The Omineca Miner

VOL. IV, NO. 14

HAZELTON, B. C., SATURDAY, DECEMBER 5, 1914

PRICE \$2.00 A YEAR

CLOSED DOWN FOR WINTER

**Rocher de Boule Crew Laid Off—
Will Resume Operations
In Spring.**

Skeena Crossing, Dec. 3.—The Montana Continental Development Co., which is working the Rocher de Boule copper mine in Juniper Basin, has suspended operations for the winter, and its large force of employees left Skeena Crossing on this morning's train for the coast. Four or five men will remain at the mines, to keep watch and ward over the various parts of the company's expensive plant, and it is anticipated that active mining and shipping operations will be resumed at the earliest possible date in the spring.

Legislature Meets Jan. 21

Victoria, Dec. 5.—The provincial legislature will assemble on Jan. 21.

New Lieutenant-Governor

Victoria, Dec. 5.—Frank Stillman Barnard, of Victoria, has been appointed lieutenant-governor of British Columbia, in succession to Hon. T. W. Paterson, whose term of office is about to expire.

Villa, with 25,000 men, has entered the City of Mexico.

MANY WITNESSES FOR MAY'S TRIAL

Twenty-six Hazelton men went to Prince Rupert on Tuesday, in connection with cases at the assize court which opened on Wednesday. The principal case is the trial of John May, the Indian charged with the murder of Albert Taylor. Over twenty witnesses are to be examined. The case was presented to the grand jury, and on the evidence submitted by Chief Constable Minty a true bill was brought in. The trial is not likely to be concluded for some days. The charge of attempted murder on which Sam Morris, a negro, is to be tried, and several civil cases, will occupy the attention of the court.

Radium in Canada

Ottawa, Nov. 30.—Three samples of radium-bearing ore from British Columbia have just been received by the Department of Mines, but the quantity of radium contained has not yet been determined. The examination of such samples is of the utmost interest because of the tremendous value of radium.

Magnetite is one of the minerals regarding the possible production of which in Canada the Department has been asked to report since the supply from Germany is cut off. The very best magnetite is known to exist in British Columbia in large deposits, but they are at present too far from transportation facilities.

One of the results of the war has been a great boom in the shipbuilding centres. In the north of England the yards have been booked for 200,000 tons of new shipping, while on the Clyde alone, orders have been given for 60,000 tons.

GREAT BATTLE IN POLAND STILL CONTINUES

LULL IN CONFLICT IN BELGIUM AND FRANCE

—KING GEORGE VISITS SOLDIERS IN TRENCHES

London, Dec. 5.—Late reports from the eastern and western theaters of war seem to indicate that no great movements have taken place during the last two days. The battle line of the Allies in Belgium and Northern France is believed to have been made impregnable, and further German attacks are awaited with confidence.

Paris last night reported that in Wednesday's fighting in Northern France over one thousand German prisoners were taken.

The right wing of the Allies has been considerably advanced, and is now near Altkirch, an important town in Alsace, below Meulhouse.

There was a lull in the struggle on the left wing yesterday.

King George again visited the trenches yesterday. He was accompanied by Lord Kitchener.

The Kaiser, who had been in Poland for some days, was in Breslau on Wednesday. His failure to appear in Berlin during the session of the German parliament was a great surprise to the German legislators. It is reported that the Kaiser had a narrow escape from death or injury in a threatened attack by an officer, who on being reprimanded, drew his sword on the monarch.

Fighting continues in Poland without definite result as yet.

The Russians are closing in on Cracow, which now appears to be at their mercy.

THE MINER'S TELEGRAPHIC BULLETINS TELL STORY OF GREAT WAR DAY BY DAY

London, Nov. 30.—Out of the vast and ever-growing army which is placed at the disposal of Lord Kitchener, a contingent numbering approximately a quarter of a million men was transported across the channel in two hundred ships, and landed at Havre two weeks ago, although the announcement has just been made. The arrival of this formidable army at the scene of war gives greater confidence in England of the failure of any further attempts by the Germans to break through towards Calais.

Correspondents' despatches from France, unconfirmed as yet by any official announcement, state that the Germans have begun a general retreat from the western end of the battle front. This is taken to indicate an abandonment of the enemy's plan to break through to Calais or Dunkirk. The French, Belgian and British troops are in good winter quarters along the Yser, and have been pursuing a policy of "watchful waiting."

Yesterday passed without any important engagements on the western battle front. The situation continues satisfactory from the point of view of the Allies.

According to unofficial reports, the German cruisers Hertha and Kaiser Wilhelm der Grosse have been sunk in an engagement with Russian ships in the Baltic.

Premier Asquith, Lord Rosebery and Hon. A. J. Balfour, as representing both parties in British politics, signed a letter for publication, declaring Great Britain's determination to see the end of the menace of German militarism. The pronouncement, which means that the war will be fought out till the enemy is beaten into submission, is strongly supported by the press.

No further details of the recent great battle on the Russian front have been received. The Czar's armies continue to advance all along their extended battle line. There were several engagements yesterday, the Russian troops capturing more German and Austrian prisoners. The enemy has not yet been entirely cleared out of the region between the Vistula and Wartha rivers, where the Germans still hold several fortified positions. The success of Russian operations against these points is thought to be only a matter of days.

There are reports that several of the German cruisers which have had their rendezvous in South American waters have gone north and will make their base at a point on the Aleutian Islands.

London, Dec. 1.—Paris despatches say the enemy is again on the defensive in Belgium. The German artillery fire has become feeble. The Allies have made progress at certain points on the battle front. In the Argonne region several attacks by the enemy on the town of Dagatelle were repulsed. A dense fog obscures the heights of the Meuse.

It is reported that the Russians have begun the bombardment of Cracow, using heavy siege guns. The suburbs of the city are in flames. The capture of the fortress is expected to occur shortly. With Przemyśl under siege, this would mean Russian ascendancy in Austria north of the Carpathians.

Germany acknowledges that the northern army of Russia has penetrated Prussian territory, to a point fifteen miles southwest of Gumbinnen.

Desperate fighting between Russians and Germans took place yesterday between Głowna and Sobota, where the Czar's forces took ten miles of trenches, protected by triple earthworks and wire defences.

Reports indicate that Austria's losses since the beginning of

The ten German warships which are now somewhere in the South Atlantic are being searched for by twelve British ships, according to a despatch from Buenos Ayres.

A British prisoner of war named Lonsdale, in one of the German concentration camps, was sentenced to ten years' imprisonment for striking a German officer.

An official statement in Berlin says transports carrying troops have arrived at Antivari, the Montenegrin port in the Adriatic. The forces were disembarked, notwithstanding efforts of Austrian aviators to hinder the landing. The Austrian troops are retreating before the newcomers.

Berlin says Britain will transport Portuguese troops to Egypt.

It is believed the declaration of war on Germany and Austria by Italy, which was expected to follow the entry of Turkey into the conflict, will not be much longer delayed.

The last bombardment of Zeebrugge by British warships resulted in the destruction of the electric plant operating the sluice gates, and the submarines in the inner basin are now bottled up.

Winnipeg, Dec. 5.—While there is a belief in some quarters that the first Canadian contingent, if not already at the front, will soon be on its way. A despatch from London states that the force is still at Salisbury Plain, and will not leave England until spring.

the war aggregate 900,000, including 19,000 officers.

The Copenhagen correspondent of the Mail reports that Germany demanded that the Swedish government suppress utterances unfriendly to Germany in the newspapers of Sweden, threatening reprisals in case of non-compliance. Germany's declaration that all wood was contraband of war has caused a tremendous revulsion of feeling in Sweden and Norway, which had previously been favorably disposed towards Germany. Since the declaration, which means a loss to Sweden alone of fifteen millions a year, there has been considerable agitation in favor of Russia. Sweden may go so far as to send ships carrying timber under convoy of war vessels, in defiance of the Kaiser's order.

The Turkish government is taking over control of all banks within the empire which belong to subjects of the Triple Entente powers.

Petrograd, Dec. 1.—The reference of Ex-Premier Balfour in London to "One of the most impudent messages ever addressed by one monarch to another" is explained by the publication here of the statement that, on the eve of the fall of Tsing Tau, the Kaiser sent a message to the Emperor of Japan, proposing peace and accepting all the conditions demanded by Japan, but exacting, as a condition to the agreement, that the Japanese should attack Russia. Japan indignantly refused to consider the proposal, the Emperor telling the Kaiser that "The day when the last foothold of German 'culture' in the Orient falls will be one of the most glorious in Japanese history." The reply concluded by telling the German monarch that he had deceived himself enormously in thinking that Japan was, like Prussia, capable of violating her treaties. The Kaiser's telegram and the reply were handed to the British ambassador.

London, Dec. 2.—King George is now at the British headquarters in France. His Majesty's action in proceeding to the front is popularly approved.

On the west wing there has been little fighting during the last three days. Cannonading continues on Yser canal, but the Germans are making no great effort to advance. The enemy has abandoned Dixmude, which was taken a short time ago at great cost. The Germans are now said to be preparing for a final desperate attack on Ypres, which is now in ruins from the continuous fire of artillery.

In the region south of Ypres, the attacks of the enemy against entrenchments taken by the Allies the previous day were repulsed. Three German batteries of heavy guns were damaged. A spirited artillery duel is in progress southwest of Peronne. A German battery has been destroyed near Craonne.

The Czar is going to the battle front.

Many German prisoners taken in the Lodz region are suffering from frozen hands and feet. The condition of many of the German troops is said to resemble that of Napoleon's soldiers on their retreat from Moscow. The Russian enveloping movement in that district continues.

The Russians claim to have taken 50,000 Austrian prisoners in the first half of November.

The result of the important series of battles in Poland appears to be still in the balance, though the impression is growing that General Mackensen has succeeded in saving the greater part of his army corps, which was surrounded by the Russians. It is equally clear that the German plan for taking Warsaw has failed. Berlin admits heavy losses at Lodz, but claims to have broken through the

(Continued on Page Four)

BRIDGE IS BADLY NEEDED

**Mass Meeting Decides to Agitate
for Permanent Structure
Over Bulkley.**

There was a large attendance at the public meeting called last Saturday evening to consider the bridge question. R. S. Sargent was chosen chairman and S. J. Martin secretary. After a number of strong speeches, the meeting unanimously passed a resolution impressing upon the provincial government the urgent necessity of a permanent bridge to replace the Bulkley ferry. A committee consisting of Wm. Ware, R. S. Sargent, J. M. MacCormick, C. V. Smith and A. R. Macdonald was appointed to bring the matter to the attention of the works department, and it was decided to circulate petitions in the town and tributary district for transmission to Victoria. The committee was given authority to send delegates to present the petition, if deemed advisable.

The business men entrusted with the work are now busily engaged in preparing for the presentation of the case to the provincial authorities. There is a general hope that the request for a bridge at the site of the present ferry will be granted.

W. A. ENTERTAINMENT NEXT TUESDAY EVENING

An event of considerable interest to the people of Hazelton and the district is the annual Pleasant Evening and sale of work of the Women's Auxiliary, which is to be held on Tuesday evening next, in Assembly hall. In addition to the display and sale of work, candies, etc., there will be a good program of songs, music, and other entertainment. As the proceeds of the sale are to be added to the Patriotic Fund, the ladies hope that all townspeople and residents in the neighborhood of Hazelton, as well as visitors from other places, will be present.

Doors open at 7:30. Admission is free, and a hearty welcome will be extended to all.

BRIGADE PUTS OUT DANGEROUS FIRE

Hazelton was again saved from a disastrous fire by the energy of the fire brigade, when on Thursday morning, a blaze starting from a defective flue in the Galena Club threatened the business part of the town. There was no delay in getting the chemical engines to the scene, and although the blaze, between the ceiling and the roof, was difficult to combat, the fire boys proved equal to the occasion, and after half an hour's hard work, extinguished the flames. The damage to the building was not serious. The Royal Bank building, next door, appeared to be in serious danger, but the brigade succeeded in keeping the fire from gaining a foothold.

The German postoffice has issued orders for the Germanization of the names of a number of French cities. Calais is changed to Kales and Boulogne to Boonen.

VOL. IV. SATURDAY, DECEMBER 5, 1914. NO. 14

Under the caption "Ignoring the Retail Merchant," the Canadian Grocer, an influential trade paper, says:

"When Sir George Foster, Minister of Trade and Commerce, decided to advertise Canadian apples for Canadian consumption he ignored the retail trade entirely. This was quite unintentional on his part. Advertising was a new phase of business to him. He called in an advertising agency who told him the proper thing to do was to give them the money and to spend it in the leading daily papers. No effort whatever was made to explain the situation to the retail trade. The result has been that the retailers were placed at a disadvantage as the public were not properly informed. They understood that apples were unusually plentiful this year and could be bought cheap. So they can, but apples of fine quality, such as leading grocers sell, cannot be bought from the farmer at low prices. When retailers who give more thought to their reputation and the value they give for the money were asked to sell apples at about \$1 a barrel—the price they were led to expect from the advertising—for which they paid to the wholesaler or farmer, \$2 or \$3, the consumer naturally believed the retailer was robbing him. Right across Canada in consequence the feeling has gone that the retail grocer, who has probably the smallest margin of profit of any dealer in the country, is making enormous profits and is the man responsible for the high cost of living. Letters are pouring in to the newspapers, and some are being published from indignant consumers, who refuse to believe the explanations.

The Canadian Manufacturers decided upon a campaign to urge Canadians to buy Made-in-Canada goods, and \$80,000 is being expended under the direction of another advertising agency. Again, the retail trade are ignored, and so are all the important weekly newspapers, and the local weekly paper is as carefully read in the smaller cities, towns and villages, as is the Bible. The manufacturers now complain they are not getting the results from their big expenditures they anticipated.

The theory of the advertising agency is that if an article is strongly advertised the retailer has got to handle it whether he likes it or not, but this has not worked out in practice. The fact is that no article has ever been forced on the retail trade permanently. The average advertising agency is not equipped to deal with the retail trade. They do not understand questions from the retailers' standpoint and advertising agencies that ignore the retail service are not giving intelligent service to their clients. As manufacturers learn more about advertising they realize that the most important factor, an absolutely essential factor, in selling any goods, is the co-operation of the retail trade.

The National Drug and Chemical Co., who are members of the Canadian Manufacturers' Association, are to be congratulated upon coming out strongly on this point. They pay an annual subscription of \$70 to the Manufacturers' Association, but announce, in a circular to members, their willingness to appropriate \$250 or \$500 a year towards a proper advertising campaign, provided that the retail trade is not ignored. In the circular they have sent to members of the Manufacturers' Association they say "to get the full benefit of newspaper advertising, it is necessary that each manufacturer should make every effort to interest the retailers in the movement, in order to get them not only to use their influence towards educating the public by means of effective window displays of Made-in-Canada goods, but also to get the retailers to really push the sale of goods. Therefore, too much stress cannot be laid . . . while at present the public TAKE A FAINT INTEREST in the Made-in-Canada movement, it would with the retailers' co-operation take a very decided interest in the movement and would be anxious to purchase "Made-in-Canada goods." As large advertisers themselves, they say further, "that unless the manufacturers are successful in interesting the retail dealers and getting them to co-operate in the important movement of developing the sale of Made-in-Canada goods that the money now being expended in the public press will, while creating some slight attention, be ultimately lost," and again in their circular they say, "to bring the present movement to a successful issue will require not only enthusiasm but continuous hard work on the part of each manufacturer with the retail dealer."

These two national experiences are of great value in opening the eyes of all manufacturers to the absolute necessity of securing the co-operation of the retail trade in promoting the sale of any article.

Advertising agencies are a very useful adjunct in national selling campaigns. There are some able and brilliant men associated with the agencies in Canada, though unfortunately many of them lack a real experience in, and grasp of, business affairs.

Some of them recognize this and are honest enough to tell the manufacturer frankly they are not equipped to handle campaigns to the retail trade, and advise him that this feature of selling is of chief importance and should be directed by the manufacturer himself or his general sales-manager.

Liquor License Application Notice

Notice is hereby given that, on the first day of December next, application will be made to the Superintendent of Provincial Police for a renewal of the license for the sale of liquor by wholesale in and upon the premises known as the Hudson's Bay Company's store, situated at Hazelton, B. C., upon the lands described as lots 6 and 7, Hazelton townsite.

Dated this 15th day of October, 1914.

The British steamer Hendon Hall, on her way to Montreal to load grain, was wrecked in Trinity Bay. The crew was saved.

General Gonzales, the Mexican revolutionary leader, is now at Pachuca, with 8000 men. He has proclaimed himself provisional president.

Pullman Was a Miner

Following the publication a few months ago of an article on the first Pullman car, in which the conductor of the car gave his reminiscences, an interesting comment comes from Alfred Skeels, of Central City, Colo., concerning George M. Pullman at the period when he was a pioneer of the camp at that city in 1859.

It is not generally known that George Pullman was a stamp mill owner and that he had acquired quite a competence in running the stamp mill and store. Says Mr. Skeels:

"This city has always been proud of the fact that George M. Pullman was one of the pioneers of this camp in 1859, and that in the following year he operated a stamp mill in Russell Gulch. E. S. Perrin, who passed away a year ago in Georgetown, at the age of 85, furnished Pullman with surface ore from the Perrin and Pewabic lodes for the operation of the mill.

"The mill charges were \$90 a cord.

"At that time Pullman lived in a cabin near the mill, a tier of bunks being arranged for sleeping quarters to give more space for the living room. The cabin that held these bunks is still standing and forms part of the old Bud Wright place in Russell gulch, and is pointed out to this day as the birthplace of the Pullman car.

"Perrin, who had left his family in Michigan, and spent a great deal of his time at Pullman's cabin, was told by Pullman that he had conceived the idea of building a sleeping car, using berths similar to the ones in his cabin. Pullman left here in 1862, after having made considerable money from his many ventures, including a general store in Central City, run under the firm name of Lyon & Pullman. This firm also operated another mill in Gregory street, as well as the first smelter on North Clear creek, below Black Hawk.

"This smelter, while a crude affair, was a product of his inventive brain.

"George Pullman, however, seems to have had the idea of the sleeping car before this, as he made a crude affair in 1857, which was not a success and was never used. The idea of the car, however, remained with him, and there is no doubt that he explained to his friends that a sleeping car would look like a cabin with bunks. After leaving Central City he kept experimenting on the car and constructed the first car that had a commercial value in 1863."

NOTICE

IN THE SUPREME COURT OF BRITISH COLUMBIA. In the matter of the Administration Act and in the matter of the Estate of John Solar, deceased, intestate. TAKE NOTICE that by an order of His Honour Judge Young, dated the 19th day of October, 1914, I was appointed Administrator of the Estate of the said John Solar, deceased, and ALL persons having claims against the said estate are hereby required to forward the same, properly verified, to me, on or before the 14th day of November, 1914, and all persons indebted to the said estate are required to pay the amounts of their indebtedness to me forthwith. STEPHEN H. HOSKINS, Official Administrator. Hazelton, B.C. Dated 23rd day of October, 1914. 8-9

Liquor Act, 1910 Notice is hereby given that, on the first day of December next, application will be made to the Superintendent of Provincial Police for the grant of a license for the sale of liquor by retail in and upon the premises known as the Burns Lake Hotel, situated at Burns Lake, upon the land described as Lot 1879. Dated this nineteenth day of October, 1914. M. H. LAIDLAW, Applicant. Manager the Burns Lake Trading and Lumber Co.

The Miner is two dollars a year to any address in Canada; to United States, three dollars.

Sept. 26, 1914. B. R. Jones.

THE MINER WAR BULLETIN

(Continued from Page One)

Russian ring. Petrograd claims to have cut the German communications.

Along the foothills of the Carpathians, the Russians have reached a point south of Cracow, while another force is directly north of that stronghold.

Twelve British warships have gone to the South Atlantic, in pursuit of the German fleet which was recently off the Chile coast, and which is now believed to be in the Atlantic.

An officer of the British Army Medical Corps reports a serious outbreak of typhoid in Belgium. Thirty new cases develop daily among the Belgian soldiers, with others among civilians. If not checked, the authorities say, there is danger of the Belgian army being wiped out, while thousands of the people of West Flanders and Northeastern France will perish.

Fifteen hundred British officers and men are reported to be in the hospitals at Boulogne, suffering from frozen feet. A thousand of them are likely to lose one or both feet.

London, Dec. 3.—General Christian De Wet, the noted Boer leader, who has been in command of a force of Germans and renegade Boers in South Africa, has been taken prisoner, with many of his men, by the loyal troops commanded by General Louis Botha. The capture of the rebel commander, it is thought, will end all rebellion in the Transvaal.

Another great war loan is to be floated by the German government. The Kaiser's parliament has voted five billion marks to carry on the war.

Advices from Petrograd say there is a lull in the fighting along the whole front, save in Poland, where the Germans made an unsuccessful attack on a Russian position near Lodz.

Berlin despatches say the German authorities admit the defeat of their armies in Poland, with severe losses, but claim that although the attempted advance on Warsaw was frustrated, the army is in no danger.

The Allies yesterday gained further ground in Argonne, while French troops have advanced in Alsace.

At Lampernisse, west of Dixmude, the German artillery yesterday conducted a fierce bombardment of Franco-British positions. The result of the action is not stated in the official communique.

New estimates by military experts place Germany's total strength in the field today, on both fronts, at less than 3,250,000 officers and men. Approximately a million men have been lost by the Germans in killed, wounded and prisoners. On the western front, in Northeastern France and Belgium, the enemy has probably 1,500,000 men engaged, the forces of the Allies being about the same in number.

King George, who is now at the front, is taking the greatest interest in the operations of the British troops and their allies. Yesterday, in company with President Poincare, General Joffre, and the premier of France, His Majesty visited General French at the British commander's field headquarters.

Belgrade has been occupied by the Austrians after four months of continued attacks. The Serbian capital was removed from the city, which is on the Austro-Serbian frontier, early in the war. The Serbian troops are in good winter positions, and are confident of holding the Austrians at bay.

Canada will supply six thousand horses for use at the front.

Reports are current that the German fleet is about to emerge into the North Sea. The Kaiser's large war vessels have been held in safety in Kiel harbor, except for occasional operations in the Baltic. Now that winter prevents the Russian ships from leaving their harbors, it is thought the German warships in the Baltic will at last endeavor to make a showing against the British navy.

London, Dec. 4.—There is an almost complete stoppage of news from the western battle front. This, it is believed, indicates that events of great importance are transpiring. Strong British reinforcements are now at the front, and it is thought an important battle is raging in Flanders.

The first official Russian report on the recent fighting in Poland states that, of the German troops defeated by the Czar's forces, one and a half army corps succeeded in cutting their way through the encircling Russians, but with enormous losses. The battle is still in progress, the advantage being with the Russians, and it is evident that, in the event of decisive defeat, which seems imminent, the Germans must retire to their own territory.

The Russian advance on Cracow is steadily progressing, and yesterday had reached within eight miles of the fortress, capturing a position within three miles of the outer fortifications.

King George spent four days with the British troops, and is still at the front. Yesterday he visited the firing line, spending some time in the trenches, conversing freely with the men and questioning them. He found a cheery determination to stay with the fight until the Germans were thoroughly beaten.

A big naval battle is expected in the South Atlantic, where the Germans are now reported to have ten warships. This fleet is being sought by British ships. The battle cruiser Invincible is steaming south to join the British fleet.

In the darkness of early morning the Germans attempted to throw a large force across the flooded waters of the Yser, on big rafts. The stratagem was discovered, and the Allies' artillery fire wrecked a number of the rafts, killing many of the enemy and drowning quite a number. Notwithstanding their heavy losses, the Germans continued to attempt the crossing until noon.

Chancellor Bethmann-Hollweg, speaking in the Reichstag, said Germans would persist to their last breath in the war which had been "forced upon the nation." He declared he had written proof of Belgium's guilt in surrendering her neutrality, and asserted that the British policy was responsible for the war.

The Austrian situation at Przemyśl is desperate.

A Berlin report says the Krupp works at Essen were raided by British airmen, who dropped bombs on half the buildings and escaped without injury. The damage is not stated.

The troops from Australia and New Zealand have been disembarked in Egypt, to assist in the defence and complete their training.

Suez Canal is reported to be in no danger from Arab raids.

Turks are reported to be massacring Christians and robbing Europeans in Palestine. All Banks are being pillaged, according to a report from Cairo.

LOCAL NEWS PARAGRAPHS

Brief Items of Interest to the People of Hazelton and District

Joe Bourgon was down from Aldermere on Tuesday.

J. E. Jacobsen in engaged in supplying cordwood to a good many citizens.

Government Agent Hoskins is spending a few days in Smithers, on official business.

R. S. Sargent went to Prince Rupert on Tuesday, to take his place on the grand jury.

A. W. Corner, the Kispiox rancher, was a business visitor in Hazelton on Wednesday.

F. M. O'Brien, of the B. R. Jones Co., came up from Skeena Crossing on Wednesday, on business.

J. L. White, of the Miner staff, left on Thursday for a month's vacation in Vancouver. J. M. Campbell, a newspaper man from Graham Island, is filling the temporary vacancy in the force.

On Tuesday Coroner Hoskins held an inquest into the death of Mike Siletsky, an Austrian, who was found dead in a box car at Carnaby. The jury found that deceased came to his death by suffocation while under the influence of liquor.

At the opening of the public school on Monday morning, flag-raising exercises were conducted, in the presence of the trustees and a number of townspeople. Government Agent Hoskins made an appropriate speech, after which the pupils sang the National Anthem, the proceedings closing with three cheers for the flag.

BABINE CONTRIBUTES TO PATRIOTIC FUND

The Miner has received and handed to Government Agent Hoskins, treasurer of the district Patriotic Fund, the sum of \$40, subscribed by the Babine Indians named below, and forwarded by Daniel Leon.

Chas. Madan & Fat Thomas	\$ 1.50
Betsie & Chas. Cohoe	1.25
Isadore Joseph & Jim James	2.00
Vandunas & Peter Denies	2.00
Little Tom	.75
Duncan Tommy	.50
Bob Charlie	.50
Ben Was Charles	.50
Lesale	.50
James Charlie	1.00
Gusamel Williams	1.00
Amel Williams	1.00
Jim Williams	1.00
Doatsie	1.00
Joseph	.50
Isaac	1.00
Selsar T., Old Fort	1.00
Antoine	1.00

The Indian school children of Babine have also contributed to the fund. Joseph F. Morrissey,

the teacher in charge, sends The Miner \$7, of which \$5 is his personal contribution, the balance being from the following pupils: Maggie McDonald, Maggie Leon, Sarah Martin, Battise Leon, Alex. Johnson, Joseph Leon, Donald Tom, William Tom, Lizzie Pierre, Maggie Hall, Pole Patrick, Jilas James, Lucy Dominic, Conny George, Mary Patrick, Mary Abraham, Edith Abraham, Hilda Johnson, William Moses, Rosie Williams.

Long Service Record

An unusual record is that of Jas. E. Kirby, mining recorder and county court registrar, who on Dec. 1 completed twenty-one years in the service of the provincial government. Enlisting in 1879 in the old 24th regiment, now known as the South Wales Borderers, he saw thirteen years' service in England, Gibraltar, India and Burma, leaving with the rank of sergeant. Coming to Canada in 1892, he served for a year and a half on the Dominion S. S. Vigilant. Thus with a break of only two months, he has been in the service of the Imperial, Dominion, or provincial government for over 35 years.

World's Gold

The world's production of gold in 1913 was \$455,000,000, being \$11,000,000 less than in 1912. The United States produced \$88,000,000—a decrease of \$5,000,000 from the previous year. In the West are numerous large gold properties of well known values waiting for capital to develop them into immense profit producing enterprises. It seems that we should get together and develop them.—Ex.

Premier Flemming, of New Brunswick, found to have extorted campaign funds, has resigned, but will run for the house of commons.

Ruddy & McKay offer good dry birch wood, delivered at \$7 a cord.

The Miner is two dollars a year.
